SMALL BAGS

We believe in Hemp, the healing power of nature, and the pursuit of living a sustainable lifestyle. We believe that we owe this to our family, friends, and communities, and to the health & well-being of future generations. We believe that Hemp has the ability to heal the world.

We Look forward to the re-introduction of industrial hemp contributing to the healing of our world.

We recognize that we have a responsibility to be a part of the solution to the many environmental challenges that we all face. We believe in the triple bottom line: People, planet, and profit. Profit is not the motive, but the means to the end. We see the road to sustainable manufacturing as a long journey with multiple permutations. We will not deviate from our commitment to the environment, our employees, our customers, and our families. We are diligent in the pursuit of a harmonious business model for others to follow.

— Together We Can

**WS-B015

**WS-B002
Cecily Shoulder Bag**

One of our favorite bags! This rugged bag keeps you hands free and can be positioned across your back, chest, or under your arm. Two generous zippered pockets stretch top to bottom. Exterior top flap pocket is great for small phones or other quick accessories. Front zipper pocket can hold phones, wallets, and more. Back is padded for comfort. This bag comes in many styles of fabric (shown: black hemp canvas).

**WS-B006
Anti-Theft Bag**

This small bag can be positioned across the chest for a security either under or over clothes, or simply slung over the shoulder. With four pockets (one full length zip, one full length snap, two outer zip), you'll have no problems carrying everything you need to keep close and personal. This also makes a great purse. Various fabrics available.

WS-B006

**WS-B003
Shoulder-Flap Sling Bag**

A small bag that holds large volumes! Highly customizable with large main zippered body, zippered front pocket, and front flap pocket. Available in many colors and fabrics. Shown: pink coarse fabric with yin-yang leaf patch.

**HEMP HEALTH
HOPE-**

Hemp grows with long fibers, making it one of the strongest, natural plant fibers available. This quality makes it ideal for industrial use, including durable textile production. Hemp “wears in”, becoming softer over time rather than wearing out.

Health aspects of hemp are many. Hemp seeds are a nutritionally balanced, high protein oil-rich food. The fibers are extremely strong and made into durable textiles that are cooling, moisture wicking, odor and rot resistant, and thus excellent for clothing and accessories that need to last. These properties also make it extremely useful in other industrial applications including bioplastics, paper, and building materials.

Hope is what we have for the future with hemp. Grown naturally with high resistance to insects and pests, crops require little to no need for pesticides. Hemp is tolerant to both wet and dry conditions and will deeply root, reducing the need for irrigation. Hemp improves soil conditions and has been used in mining recovery areas. This incredible plant has so many applications. We hope you enjoy your hemp fiber textile products!

Equally at home on the job and on the trail, our Hemp Treks Boots are comfortable, rugged, and stylish. Both our rubber and rubber + hemp soles have superior grip strength to keep you upright.

Our new footwear line is now available! Rugged wear, street wear, and office worthy, all sustainably sourced from a small family owned and operated facility where workers mold, cut, sew, and create quality hand-made footwear. Shoe and boot uppers are crafted with hemp fabric and leather detail. Soles are constructed with either rubber or a hemp hurd + rubber blend. Various sole styles and fabrics are available for custom orders. Additional styles available upon special request for truly custom apparel.
